

Welcome to Jaguar Communications' Voicemail System.

Our Voicemail System will allow you to keep in touch with your messages like never before.

- Setup, manage and listen to your VM online.
- Have VM received notices sent to your email address and/or text device.
- Listen to your messages and change your VM options from any phone.
- Audible message waiting indicator on your phone. (If you have new messages, you will hear a stuttered dial tone on your line)

When your Jaguar VM is first activated it will use a default greeting and can receive messages immediately.

To listen to your messages or change your VM options from your VM enabled Jaguar line, dial *318 and use the last four digits of your VM enabled telephone number as the initial password.

Note: For security reasons, Jaguar Communications recommends that you change your VM password when you first log on. Passwords must be 4 to 8 digits in length.

To listen to your messages or change your VM options from a phone other than your VM enabled Jaguar line, call your VM enabled telephone number and when the system answers, press * and enter your password when prompted or call one of the access numbers listed below and enter your ten digit Jaguar VM enabled telephone number and your password when prompted. (1+507 may be required. Long distance charges may apply)

Albert Lea	552-1110	Northfield	366-1110
Austin	355-1110	Owatonna	214-1110
Faribault	209-1110	Rochester	361-1110
Blooming Prairie	572-1110	Waseca	310-1110

To setup, manage and listen to your VM online, go to <http://voicemail.jagcom.net>
Enter your ten digit VM enabled telephone number as the UserID and the last four digits of your VM enabled telephone number as the Password. For further instructions on VM web access, please go to <http://www.jagcom.net/vmweb.pdf>

VM Telephone Quick navigation menu:

VM log in

- Dial *318 from your VM enabled line and enter your password when prompted.
- If calling from a line other than your VM enabled line, call your VM enabled telephone number and when the system answers, press * and enter your password when prompted or dial one of the access numbers listed above and enter your ten digit VM enabled telephone number and password when prompted.

Listen to your messages

- Log in to VM
- Listen to audio prompt letting you know the status of your messages.
- Press 1 to play messages
- Press 5 to repeat current message
- Press 6 to skip to next message
- Press 4 to play the previous message
- Press 7 to delete the current message
- Press 9 save the current message

Change Password

- Log in to VM
- Press 9 for account options
- Press 4 to change password
- Listen to audio instructions

Record or Change Greeting

- Log in to VM
- Press 0 for Mailbox Options
- Press 1 to Record Greeting

Note: Jaguar only supports the Unavailable Message and not the Busy Message. Callers will only hear the Unavailable Message when a call goes unanswered or the line is busy.

The VM system has Audio Instructions for all tasks and options. Please listen to all instructions carefully.
